SUMMARY:

With a diverse background in logistics, finance, and hospitality management, I've developed a strong ability to navigate complex challenges, streamline operations, and deliver results within fast-paced environments. These experiences have sharpened my skills in prioritization, collaboration, and practical problem-solving. Today, I'm driven by opportunities to grow in the web development field—continually seeking out challenges that push me to learn, adapt, and make meaningful contributions through thoughtful, efficient solutions.

TECHNICAL SKILLS:

Tools/Software = Git, HTML, CSS, JavaScript, React, Node, Express, PostgreSQL, Python, Linux, Cybersecurity

Soft Skills = Teamwork, leadership, communication, attention to detail, continuous improvement, problem-solving, research skills, reliability, responsibility, adaptability, quick learner, self-motivation, organization, time management

Certifications = Udemy: Complete Web Developer

LATEST PROJECTS:

- **GAiNZ Fitness Planner:** React app collaborative project that uses AI logic to create workouts from a curated database
- **FaceTrace:** Web app that maps face boxes over any faces in an image from a URL using an external AI API
- **BookBuddy:** Library app that allows you to log in/register and check out books while keeping track of state
- **Robofriends:** Bootcamp project using JavaScript that mimics a social media app with robot friends

RELEVANT EXPERIENCE:

Chef de Cuisine | The Godfrey Hotel | Detroit, MI | February 2024 - November 2024

- **Responsibility:** Conducted operations, including menu development, costing, scheduling, staff management, and systems implementation
- **Management:** Created food preparation lists, AOR checklists, order guides, and other organizational tools to better facilitate productivity
- **Problem Solving:** Reduced labor cost and food cost through careful management
- **Teamwork:** Coordinated with other managers to strategize for growth opportunities

Operational Service Representative | Kuehne & Nagel | Detroit, MI | August 2022 - February 2024

- **Research Skills:** Learned the fundamentals of logistics and how goods are transported globally
- **Reliable:** Ensured the commodity information was correct and in line with customs requirements.
- **Adaptability:** Familiarized myself with ocean, rail, and ground freight, as well as the basics of customs.

Underwriter | United Wholesale Mortgage | Pontiac, MI | August 2021 - August 2022

- **Accountability:** Managed a workload of between 12-30 mortgages daily
- **Team-Oriented:** Participated in the underwriter advisory board to work toward honing and perfecting internal processes
- **Attention to Detail:** Trained to have a keen eye for detail and a proficiency in data entry

EDUCATION:

University of Michigan School of Engineering: Professional Education Coding Bootcamp | 08/25 - 11/25

Powered by Fullstack Academy

Immersive software engineering coding bootcamp focused on developing and deploying robust full-stack web applications by mastering HTML and JavaScript foundations, front- and back-end development, and databases.
